

**TENNESSEE DEPARTMENT OF AGRICULTURE
REGULATORY SERVICES - ANIMAL HEALTH**

SUMMARY: LIVESTOCK HEALTH REQUIREMENTS FOR FAIRS AND EXHIBITIONS

I GENERAL:

- A. All stalls, pens, chutes, etc. located on the grounds of fairs and exhibitions shall be thoroughly cleaned and disinfected with a disinfectant approved by USDA, APHIS between each scheduled fair or exhibition.
- B. All livestock (except poultry) which enter fairs and exhibitions shall be accompanied by an official veterinary health certificate with individual permanent identification or sufficient description to identify each animal. Certificates for this purpose shall be valid for ninety (90) days from date of issue. (Tennessee livestock only – out-of-state certificates are valid for thirty (30) days from the date of issue)
- C. No animal showing clinical signs of infectious or communicable disease shall be allowed to enter or remain on premises of fairs or exhibitions. It shall be the responsibility of the manager of each event to assure prompt removal of such animals.

II LIVESTOCK AND POULTRY ORIGINATING WITHIN THE STATE OF TENNESSEE

[Certificates of Veterinary Inspection Valid for a Period of Ninety (90) Days]

A. SWINE:

All swine which enter fairs and exhibitions shall be accompanied by an official veterinary health certificate with individual permanent identification or sufficient description to identify each animal.

B. CATTLE:

All cattle which enter fairs and exhibitions shall be accompanied by an official veterinary health certificate with individual permanent identification or sufficient description to identify each animal.

C. POULTRY:

(1) Sponsors of poultry shows or exhibitions shall notify the Tennessee Department of Agriculture at least **thirty (30) days prior to show or exhibition.**

(2) All poultry assembled at shows or exhibitions shall be accompanied by

evidence of a negative test for Pullorum-Typhoid within ninety (90) days or originate directly from a flock which has been certified as Pullorum-Typhoid Clean under the Tennessee Poultry Improvement Plan.

(3) Poultry found not to be in apparent good health shall be removed immediately from any show or exhibition.

D. HORSES & OTHER EQUIDAE:

Horses and other Equidae six (6) months of age and older must have a negative Equine Infectious Anemia test within the preceding twelve (12) months.

E. SHEEP

(1) All sheep imported into or through Tennessee shall be accompanied by an official health certificate and be in compliance with 0080-2-1-.02, and Title 9, Code of Federal Regulations, Part 79.1 through 79.4.

(2) All sheep that move within the state, with the exception of wethers under the age of 18 months that are produced for slaughter only, including for change of ownership, shows, fairs, expositions or slaughter shall be permanently, individually identified by a method approved in Title 9, Code of Federal Regulations, Part 79.1 through 79.4.

F. GOATS

(1) Goats imported into or through Tennessee shall be accompanied by an official health certificate and be in compliance with 0080-2-1-.02, and Title 9, Code of Federal Regulations, Part 79.1 through 79.4.

(2) Goats imported into Tennessee for immediate slaughter to an approved slaughter establishment or to an approved livestock market for sale to a slaughter establishment shall only be required to have a transportation document and be in compliance with Title 9, Code of Federal Regulations, Part 79.1 through 79.4.

(3) All registered breeding goats, goats that have been commingled with sheep, goats for exhibition and dairy goats that move within the state, including for change of ownership, shows, fairs, expositions or slaughter shall be permanently, individually identified by a method approved in Title 9, Code of Federal Regulations, Part 79.1 through 79.4.

G. CAMELIDS: Camelids must have an official veterinary health certificate as provided in Rule 0080-2-3-.01 (1).

H. CAPTIVE CERVIDAE: Captive Cervidae must have an official veterinary health certificate as provided in Rule 0080-2-3-.01 (1).

III LIVESTOCK AND POULTRY ORIGINATING OUTSIDE THE STATE OF TENNESSEE

Livestock and Poultry entering fairs and exhibitions from areas outside the State of Tennessee shall be subject to current Tennessee import requirements. Please contact the state veterinarian's office regarding questions or recent changes to these rules. These interstate requirements are summarized as follows:

A. ALL SPECIES (except poultry):

Official Certificate of Veterinary Inspection valid for thirty (30) days.

B. CATTLE:

Certificate of Veterinary Inspection and additional requirements as follows:

(1) Tuberculosis: No requirements. **Owners of Michigan, Minnesota, New Mexico and California origin cattle should contact the state veterinarian's office for further information.**

(2) Brucellosis: Test eligible cattle - Intact male or female cattle eighteen (18) months or older. (Vaccinates and non-vaccinates)

Certified Herds - No test requirements.

Class Free States - No test requirements.

Class A - Negative test within 30 days.

C. SWINE:

(1) Breeding Swine: (a) 30 day negative test for pseudorabies, or

(b) Originate from Qualified Negative Pseudorabies Herd, or

(c) Originate directly from a herd in a Stage V (Pseudorabies-Free) State,
and

(d) If four (4) months of age or older:

(1) Negative test for brucellosis within thirty (30) days, or

(2) Originate directly from a Validated Brucellosis-Free Herd, or

- (3) Originate directly from a Validated Brucellosis-Free State.
- (2) Feeding Swine: (a) 30 day negative test for pseudorabies, or
 - (b) Originate from Qualified Negative Pseudorabies Herd, or
 - (c) Originate from Pseudorabies Monitored Herd, or
 - (d) Originate from a herd in a Stage III, IV, or V state in the National Pseudorabies Eradication Program.

D. HORSES AND OTHER EQUINES:

Animals six (6) months of age or older - negative equine infectious anemia (Swamp Fever) test within twelve (12) months.

E. POULTRY:

Originate directly from a Pullorum-Typhoid Clean Flock, or be accompanied by evidence of negative Pullorum-Typhoid test within ninety (90) days.

F. SHEEP

(1) All sheep imported into or through Tennessee shall be accompanied by an official health certificate and be in compliance with 0080-2-1-.02, and Title 9, Code of Federal Regulations, Part 79.1 through 79.4.

(2) All sheep that move within the state, with the exception of wethers under the age of 18 months that are produced for slaughter only, including for change of ownership, shows, fairs, expositions or slaughter shall be permanently, individually identified by a method approved in Title 9, Code of Federal Regulations, Part 79.1 through 79.4.

G. GOATS

(1) Goats imported into or through Tennessee shall be accompanied by an official health certificate and be in compliance with 0080-2-1-.02, and Title 9, Code of Federal Regulations, Part 79.1 through 79.4.

(2) Goats imported into Tennessee for immediate slaughter to an approved slaughter establishment or to an approved livestock market for sale to a slaughter establishment shall only be required to have a transportation document and be in compliance with Title 9, Code of Federal Regulations, Part 79.1 through 79.4.

(3) All registered breeding goats, goats that have been commingled with sheep, goats for exhibition and dairy goats that move within the state, including for change of ownership, shows, fairs, expositions or slaughter shall be permanently, individually

identified by a method approved in Title 9, Code of Federal Regulations, Part 79.1 through 79.4.

H. CAMELIDAE: Same requirements as for cattle.

I. CERVIDAE:

Certificate of Veterinary Inspection and additional requirements as follows:

(1) Brucellosis: Same requirements as for cattle.

(2) Tuberculosis:

(a) All cervidae shall originate in herds which have had a negative herd test for tuberculosis within twelve (12) months with a USDA approved single cervical test and individual imported animals shall be negative to the single cervical test within thirty (30) days of entry; or

(b) Animals not originating in tested herds as described above must test negative to two (2) single cervical tests at least ninety (90) days apart, the second test conducted not more than thirty (30) days prior to entry.

NOTE: (Contact an accredited veterinarian for further details of import rules).

IV Fair association or exhibition or management shall inform exhibitors of the rules of this chapter, and shall notify the State Veterinarian or his agent of any violations. Exhibitors shall present evidence of compliance with this chapter to the State Veterinarian or his agent upon request.

These rules constitute a minimum legal standard and in no way restrict the right of fair and exhibition managers to establish additional or more stringent requirements.

TENNESSEE DEPARTMENT OF AGRICULTURE

KEN GIVENS
COMMISSIONER

REGULATORY SERVICES
ANIMAL HEALTH

MEMORANDUM

TO: Fair Officials

FROM: Ronald B. Wilson, D.V.M.
State Veterinarian

DATE: March 3, 2008

Enclosed is a summary of Tennessee Fair Regulations - health requirements for livestock at fairs and exhibitions.

Special Comments:

1. Health certificates issued in satisfaction of these Tennessee Fair Regulations shall be good for **90** days for Tennessee livestock only. Please note the additional requirements listed below for the Knoxville Spring Junior Cattle Exposition and the Tennessee Junior Livestock Exposition and associated shows (county and district).
2. As noted in the enclosed health requirements, Tennessee requires that all poultry assembled at shows or exhibitions be accompanied by evidence of a negative test for Pullorum-Typhoid within 90 days or originate directly from a flock which has been certified as Pullorum-Typhoid Clean under the Tennessee Poultry Improvement Plan. As per last year's testing guidelines, on-site testing of poultry is no longer allowed. As part of increased awareness and surveillance for Avian Influenza and other poultry diseases, all birds physical health appearance should be assessed at the time testing is conducted. Testing must be completed prior to commingling with birds of other ownership.
3. Any "chick chain" birds that have been commingled with birds of unknown disease status must test negative for Pullorum-Typhoid prior to entry.
4. Please note that exhibition requirements for out-of-state livestock are the same as regular import requirements.
5. Requirements for the Junior Livestock Exposition in Murfreesboro (beef) and sheep consigned to the Junior Livestock Exposition in Cookeville must meet the following requirements:
 - **Health Requirements:** Certificates of Veterinary Inspection (CVI) will be required for every animal exhibited at the Knoxville Spring Junior Cattle Exposition and the Tennessee Junior Livestock Exposition and associated shows (county and district). It is expected that junior exhibitors will bring only healthy animals to the Expos. The Certificate of Veterinary Inspection (CVI) must be dated within 45 days of the respective show. All animals are subject to being inspected after arrival at the show facilities and any with clinical signs of contagious disease will be sent home

immediately. Certificate(s) of Veterinary Inspection are to accompany the animal(s) to the respective shows.

- All sheep that show in EXPO must have approved ear tags. Any sheep that are to be exhibited in any show (including Commercial Ewes and Market Lamb) will be required to have an approved Scrapie Program ear tag in their ear. This will apply to the sheep shown in the Tennessee Junior Livestock EXPO. This must be done in accordance with the guidelines provided by USDA Animal and Plant Health Inspection Service (APHIS) and the rules of the Tennessee Department of Agriculture. **Note: Wethers are no longer exempt from the Scrapie identification requirements.**
 - Exhibitors who have breeding flocks will be required to have official USDA identification in order to show or to sell ewe or ram lambs for exhibition and/or breeding. This is done by filling out the appropriate form to obtain a flock/premise identification number and ear tags. Existing flock identification numbers may be allowed if properly registered. If this has not already been done, it is recommended that it be done as soon as possible.
 - Exhibitors who purchase the ewes they will show must be certain the ewes have been tagged by the breeder (flock of birth). Avoid purchasing ewes to exhibit if they don't have approved ear tags.
6. **Warts and ringworm are considered contagious and infectious diseases and are permissible exclusions only if considered inactive by the issuing veterinarian and noted as such on the Certificate of Veterinary Inspection.**
 7. **Scabies, contagious ecthyma (soremouth), footrot, cutaneous fungal and bacterial infections (i.e. club lamb disease, caseous lymphadenitis) are considered contagious and infectious diseases, and are permissible exclusions only if considered inactive by the issuing veterinarian and noted as such on the Certificate of Veterinary Inspection.**
 8. **Fair officials are responsible** for reporting any violations of these regulations to the state veterinarian or his agent.

Please retain this material for reference during the 2007 fair season.
